Completes Management Development Course

The twelve local people shown above completed a Management Development Course on Thursday night, November 15th. The six-week course, "Lead the Field by Earl Nightingale," was taught each Thursday night at the Farmers National Bank, Triangle Plaza Branch by Ray Hanchey, Instructor.

Shown above, from left to right, are Ray Hanchey, Instructor, Dot Coleman, Dick Bland, JoAnn Harvey, Harry Ranson, Brod Pack, David Scruggs, Jean Chenault, Charles Wallace, Jim Pugh, Wallace Haley, Tom Matthews and Walter Carson.

Miriam Ferris

Who's Who In FBLA

The Who's Who in FBLA for the month of October is Miriam Ferris, daughter of Mrs. E. H. Ferris.

This year Miriam is serving as President of our chapter.

She has attended the Leadership Training Conference at Massentta Springs, the Longwood Regional Fall Workshop and all chapter and executive meetings.

Miriam has done a lot for the chapter this year. She helped with the display at Swap and Shop, acted as a guide for Open House at school, worked on the bulletin board for the fair and helped with the homecoming float. She brought cookies for the teacher's tea and helped with the bake sale and Railroad Day.

MRS. DICKERSON'S 4-H club

The regular meeting of Mrs. Dickerson's 4-H club was held Oct. 12, 1973.

Keith Dickerson opened the club. The recreation leaders led us in songs and the game of 7-up. We talked about our old business, then we chose our projects. Some of us chose a new project which was Arts and Crafts. Mrs. Green told us some things we would do. She also said we would meet Nov. 2, 1973 for an Arts & Crafts Workshop. Meeting adjourned.

Sybil Franklin

MRS. GREGORY 4-H

Mrs. Gregory's 4-H met Friday, Nov. 16, 1973. We talked about some of our projects, and we also talked about 4-H public speaking. Mr. Sweet gave a demonstration about soil and rocks.

House Doctor

Jim--My wife's been nursing a grouch all this week.

Joe--Been laid up, have you?

Lucky Pup

"There are direct and indirect taxation. Give me an example of indirect taxation."

"The dog tax, sir."

"How is that?"

"The dog does not have to pay it."

ONE MINUTE SPORTS QUIZ

1. Who won the King's Island Open Golf tournament?
2. Name the winner of the National 500.
3. Wilt Chamberlain is now player-coach for what team?
4. Who won the U. S. Grand Prix?
5. Name the player who holds the record for most RBIs in a World Series game.

Answers To Sports Quiz

1. Jack Nicklaus.
2. Cale Yarborough.
3. The A.B.A. San Diego Conquistadors.
4. Ronnie Peterson of Sweden.
5. Bobby Richardson with six.

Whale of a Problem

Oil Additive Ban Makes Waves

After centuries of being hunted over the world's oceans, the whale has finally struck back where it hurts his pursuers most--right in their technology.

Ironically enough, the enactment of the Endangered Species Law Jan. 1, 1971, enabled these mighty denizens of the deep to disrupt the world's oiled world of their No. 1 enemy, man.

Phased into effect over an 18 month period, the law makes it illegal for U.S. whalers to practice their trade and bans importing products derived from the aquatic beasts.

Few people are aware sperm whale oil has been an important additive in widely used lubricants. The unique oil has the ability to penetrate the surface of steel, providing a slippery film that stays put. It also has excellent viscosity, or body, which makes it ideal for extreme high or low temperature use. And its molecular structure does not break down in severe duty.

With sperm oil taken away, some of the smooth-running machines of pleasure and production literally screeched to a halt. Hydraulic systems of farm and construction equipment malfunctioned. Buses that once swept along freeways at 75 mph could only do 40. Machining operations ceased to function properly. A few owners of stern drive powered boats heard a howling noise that signaled immediate mechanical problems.

In fact, a few applications are as severe as the gear systems of high-powered stern drive boats, where the lubricant, in constant use, is not "rested" in a large sump such as in the automatic transmission of automobiles.

Finding a stand-in for whale oil proved far more complex and time consuming than envisioned.

"Long before the cut-off date we began a search for a lubricant with a substitute additive for use in the lower gear assembly of our big V-8 stern drive power units," says Ralph Lambrecht, chief engineer of the OMC Stern Drive Division of Outboard Marine Corporation.

The company's problem was shared by other manufacturers of similar marine power systems, as well as by other users, so a considerable effort was brought to bear by oil companies, additive suppliers and many engineering staffs.

"What first appeared a routine engineering job turned out to be a pretty tricky business," Lambrecht admits. "We thought we had found a lubricant with a substitute additive but under severe testing it didn't always do the job."

The former lubricant, OMC "Type C", spiked with whale oil, had maintained its viscosity in the lower gear case at frigid or torrid temperatures.

"We found a good substitute for Type C, but not before some of our V-8 stern drive owners obtained lubricants without the proper additive," adds Lambrecht. "Our concern now is letting owners of OMC Stern Drive powered boats know they must change to the new lubricant in the lower gear case of V-8 powered drives, or add an additive to the lube they are now using. Normally, oil is changed in Spring or Fall."

The interim additive Lambrecht refers to is OMC Stern Drive's Lower Gear Case Oil Supplement.

Prior to the 1971 law, the U.S. used about 60 percent of the world production of whale oil, extracted from a catch of more than 5,000.

The substitutes developed so far are mainly derived from vegetables, so unless soy, or castor beans, or coconuts, get on the endangered list, more whales can look forward to meeting their maker as nature intended.

RECIPE

By Sarah Anne Sheridan

Rice is an excellent extender for meat dishes while the price of good meats is a problem for the family budget. A salad and dessert will compliment this main meat dish.

Rice Meat Loaf

1 medium onion chopped
1 c cooked rice
1 lb. ground ham
1 lb. ground veal
2 beaten eggs
1½ c milk
1/8 t pepper
1 t salt
½ t garlic salt

Topping

1/3 c brown sugar
¼ c vinegar
1 T dry mustard

Mix onion, rice, ham and veal together. Beat eggs into milk; add to meat. Add pepper, salt and garlic salt. This makes a soft mixture. Pour into a well greased loaf pan and pat down so the top is even. Combine the brown sugar, vinegar and mustard. Pour over the top of loaf and bake 1½ hours in an oven 250 degrees. Garnish with cooked small onions. Serve with catsup.

Three Little Words

"What does the bride think when she walks into the church?"

"Aisle, Altar, Hymn."

Debbie Stratton

September Who's Who

Debbie Stratton, daughter of Mr. and Mrs. Kelly D. Stratton was named "Who's Who in FBLA" for the month of September.

She is presently serving as secretary of our chapter. She has attended all monthly meetings, the Longwood Regional meeting and Executive meetings.

Debbie has been very active in FBLA doing such things as: selling candy and trash bags, taking part in the tea for teachers, making cup cakes for Railroad Day and folding letters for the Lawyer. This is only a part of her activities. Our chapter feels very proud to have a girl like Debbie in FBLA.

Nominations Completed For ASC Farmer Committeemen

Some 19 farm residents of Appomattox county are in the running for three Agricultural Stabilization and Conservation (ASC) community committees, according to James R. Ford, Jr., Chairman of the Appomattox County ASC Committee.

The mail election for ASC community committeemen is being held this month, and ballots have been mailed to all persons eligible to vote in the farmer committee elections, Mr. Ford said. The final date for mailing voted ballots, or for dropping them off at the county ASCS office, is Dec. 3. Ballots will be counted on Dec. 10 in the county ASCS office, Appomattox, Va. with the public invited to attend. The counting will begin at 9:00 a.m.

On Dec. 17 the newly elected community committeemen will hold a county convention to nominate and elect one county committee member and two alternates, the Chairman a.m pointed out. The newly-elected county committee member will serve for three years. the alternates for one year.

ASC community committeemen, and newly elected members of the ASC county committee, but also assist the county committee throughout the year in the administration of federal farm programs locally, according to Mr. Ford. Appomattox county the principal farm programs are tobacco marketing quotas, wheat and feed grain, storage facility loans and emergency conservation measures.

In the community committee mail election, farmers in each community will elect three committee members and two alternates, to serve one year terms, Mr. Ford said.

He pointed out that any farmer who is eligible to take part in any ASCS program is eligible to vote in the mail election. Voting eligibility is determined without regard to race, sex, color, religion or national origin.

Mr. Ford said a list of know eligible voters is on file at the county ASCS office, and is open for public inspection. "If a man or woman feels he or she is eligible to vote and is not listed, just call it to the attention of anyone in the office, and it will be checked out right away," he said.

Farmers might also want to check at the office to be sure which ASCS community they are in, the Chairman said.

Are You Worthless!!

I am sure that you have either said yourself or have heard others say, "People just aren't interested in their community. It seems difficult to get people involved in what is going on within their community."

Stop and take a close look at your own contributions to the community. Do you always offer assistance whenever the opportunity arises? Or, are you the one who places the responsibility on your neighbors.

How can you become an active worthwhile citizen rather than a passive worthless one. Let us start with the school system. If you have children do you attend your Parent Teacher Association meetings at your child's school. If not, how do you know exactly what the school is doing for your child. To be a good parent one must be informed as well as concerned.

Being a Boy Scout or Girl Scout leader does not require one to have children. This would be a good way for adults to meet the needs of the young people in their community. Having been a Girl Scout for some eleven odd years I can personally testify to the influence adult leaders have on young people in the community.

Foster care is another service one can render to their community. Hardly a day passes that foster homes are not needed in which to place children who require correct adult guidance. We should be concerned about the rearing of our young people for one day they will be the adult leaders of our community.

The church is one of the m..st dominant figures in the lives of many of our Appomattox citizens. What better way to serve your community than by teaching a Sunday School class or sponsoring a youth organization.

Last but not least we cannot forget 4-H programs and our need for reaching additional young people. Before we can offer any type of program to our young people we must first have the adult leadership. If you are not an active citizen of Appomattox, what do you think you can do about it?

If I can be of assistance please call me at 352-8244 or stop by the County Extension Office.

Karen Jo Green,
Extension Agent, 4-H CRD

Fashion

Many of the working girls, who travel a great deal, prefer pants and separates as their popular outfits. They can assemble blouses, sweaters and jackets of various styles and fabrics and in this way make changes as the occasion demands.

Suede jackets are good this season and another favorite is the plaid wrap around jacket with solid color pants.

Turtle necks are still popular but they are definitely not for everyone.

DO YOU HATE GOD?

I believe that men without God's saving grace do in word and deed hate God. I will seek to show this, that you might seek to be saved.

Paul when describing fallen mankind said that they were "haters of God" Romans 1:30. He goes on to show that men are actively engaged against God. "Because the carnal mind is enmity (hostile) against God; for it is not subject to the law of God, neither indeed can be" Romans 8:7. You may be saying, "Wait a minute, I don't hate God and I'm not a Christian." Yes, you really do hate Him. You may not realize it because Satan has blinded your eyes. You are under Satan's control and do his will and he makes you think you are doing your own will. I want to show some ways you hate God. (1) You are already proving your hatred by your dislike of what has been said. You also do not want a sound knowledge of God. Romans chapter one shows that fallen men do not want to retain God in their mind. It also shows that when they knew God they glorified Him not as God but became vain in their imaginations. (2) You evidence your hatred of God by the way you treat His name. You take it in vain with profane oaths and curses. You may use His holy name in jests, vile songs and mockery. There has never been a pest of society so often cursed as the Lord God. I walked into a store the other day and there was a man who cursed God and those around joined in by laughing. But when they cry for mercy from God's judgement He will laugh. (Read Prov. 1:23-28). Why do men use God's name in such a way? The reason is their hatred for God. Now few of them would curse their mother but they do their creator and judge. (3) You prove your hatred of God because you are unwilling to see His glory advanced. The religious leaders in Christ's day were "sore displeased" when God was honored. Matt. 21:15. Men hated God in the flesh, Jesus Christ, because there was no fault in Him. (4) You show your hatred of God by your hatred of His laws and rules set forth in the Bible. Our society even hates God's law. The Lord said, "If you love me keep my commandments." But men rebel against God and cry like those in Luke's Gospel, "We will not have this man reign over us." Why? Because you hate God. You willingly break His laws. God said, "Remember the Sabbath day to keep it holy." The Christian sabbath is on Sunday but men hate God's law and the evidence is seen in businesses staying open, people mowing yards, etc. (5) You show your hatred of God when you hate His people. Over 30 millions of Christians have been slain by religious groups, heathen governments, false cults, etc. Many make light of Christians and hate them, but God takes it personal as against Himself. (6) You prove your hatred of God by hating His character. Saved people love God's attributes and praise Him for His holiness goodness, mercy, etc. But wicked men desire what wicked men did in Isaiah, "Cause the Holy One of Israel to cease from before us" 30:11. Lost men get mad when their friends are saved. (7) Your hatred is seen in your ingratitude for God's mercies. You can sit at a table filled with food and never thank God. You breathe His air, use the strength He gives you, love the family He gives you and hate Him. But this won't go on forever. God controls life and, when you least expect it He will take yours. "All they that hate me love death." Prov. 8:36. There is no hope for you in yourself. The only hope is in the mediator between God and man, the man Christ Jesus. It is only through His cleansing blood that you can be cleansed from your sin.
